Education

Digital Design and Development, British Columbia Institute of Technology | 2 year Diploma, September 2019-May 2021

Learned and applied skills in web development, marketing, and digital asset creation. Many of the skills were put into practice through term projects. These projects ranged from mobile applications, web-based browser games, and websites.

Work Experience

Warehouse Receiver Intern | STEMCELL Technologies
June 2017 - August 2017

Tasks ranged from unloading and safely storing delivered products, reviewing and discarding expired goods, and keeping track of stored inventory. Displayed great responsiveness and problem-solving.

Sales Associate | Vans
February 2019 - May 2019

Assisted customers with purchase decisions and kept track of incoming sales and merchandise. Was adaptive in the sales environment and ensured satisfaction for each customer.

Digital Marketing Intern | STEMCELL Technologies
June 2019 - August 2019

Worked with a small team and assisted with Search Engine Optimization (SEO), Facebook Ads, and Google Analytics. Was highly motivated during the span of the internship and developed strong team-building skills.
